

# Simple Formula

People are joining Revenue Sharing Advertising Websites for one simple reason . . .  
**THEY WORK!**

Once they fully comprehend that fact . . . you can't beat them off with a stick. If you are already realizing the massive profits these websites generate, the next step is to get referrals to leverage that and compound your earnings faster. This adds momentum to your efforts and the outcome is simply AMAZING!

HOWEVER . . . for every one that joins, there are hundreds who would love to try it but don't have the money to commit to it. They are WAITING FOR YOU to show them how to get the money for FREE!

Set up a simple report like this to EDUCATE them and I will see you at the BANK!

---

## How It's Done!

Free Money is laying all over the Internet, just get a wheelbarrow and a scoop shovel to start getting your share. Alright that's a slight exaggeration, but not much if you live in the United States or Canada. Now it has been extended to the UK too!

Every time an advertisement is shown, someone gets paid. In the case of a 30 second spot on the SuperBowl, it can be a LOT of payments in staggering proportions. This made some advertisers realize it would be much cheaper and probably much more effective to pay YOU directly!

So if you are willing to be advertised to, you can earn enough on the side to get your own Ad Rebates flowing faster and faster as you continue to compound them. Then if you show other people how you do this, the referrals multiply your results exponentially.

The best website I have found to get a steady flow of \$25 payments after you subject yourself to a small amount of advertising pain is [ZeroPriceTags](#).

**If you live in the UK, enter your address as follows:**

123 International Street,  
New York, NY 10166

*(Once you are registered they will bypass the phone verification for you)*

The advertisers on here pay to get us to try products or services and the website pays us if we get others that are willing to do the same thing. Their total combined cost is much less than running expensive campaigns with the ad agencies and TV stations.

FIRST keep this in mind when you consider doing this. DO NOT look for a bargain in the offers that are on there, just find something you can USE.

Even if you spent as much as \$100 like I did, it gets it done easy and fast so you can move into earning with it. I did this with another one of their earlier websites that was more expensive and made \$600 the next week. If you don't have \$100 there are many lower cost offers to try. Whatever you spend is an investment in your future earning and you still get to keep whatever you try.

I am excited about this one because it's only ½ credit to get qualified to earn \$25 over and over. Make sure you only choose the \$25 gift and not any of the enticing larger offers. You can make much more by making it easy for you and your referrals both.

Then once you get the ½ credit completed, contact me and I will help you set up a splash page (simple website for getting referrals) and show you how to use it.

I use the current splash page for inviting anyone that makes low wages to see what I do. I find them in gas stations, retail, fast food, even telemarketers. I send you the code for the website and a video showing how to set it all up and even a sample of the business card I hand out and where you can get them free (\$6 for shipping only).

So that gives you the WHAT, WHERE and HOW and the rest is up to you. It's free to join any of the Revenue Sharing websites and try them out and even the offers website is free to sign up for. You might even find a few referrals if you try, then you can move ahead with less risk. It's just easier to convince others if you have done it yourself.

Let me know if you have any questions. You can save this report to your desktop for later and feel free to share it with anyone you want to.
